- Technical work on high quality & extensive 3D is proceeding to high grade the opportunities

# Europa Oil and Gas Offshore Morocco – Inezgane Licence

Inezgane licence Arbitrary NW to SE line PSDM line (Combination of RTM & Kirchhoff)

# Europa Oil and Gas Offshore Morocco – Inezgane Licence

## The Opportunity

- Underexplored basin with multiple trap types, large reserves and proven working hydrocarbon system. New work is supporting reservoir presence.

## Programme & Timing

- Initial phase (2 years) with a low cost work programme commitment to reprocess 1300km<sup>2</sup> of 3D data.
- Drill or drop at end of initial phase

## Why Morocco?

- Excellent fiscal terms, low tax, stable country, open and welcoming to entrants.
- Low cost of entry including access to legacy seismic and well data.
- Several major and mid cap companies with Moroccan acreage

## Proposed Deal Terms

- Opportunity to farm-in for carry of initial phase work programme and back costs
